Career Objective

Motivated Computer Science student with a strong interest in web Development, Salesforce Development, data structures, and software engineering. Eager to apply academic knowledge, project experience and a strong foundation in programming, data structures, and web technologies to real-world challenges.

Education

B.Tech. Computer Science & Engineering <i>Dr. K.N. Modi Institute of Engineering & Technology</i>	2022 - 2026 7.7 CGPA
Senior Secondary <i>Panchayat Intermediate College</i>	2020 - 2022 60.00%
High School <i>PG Senior Secondary School</i>	2018 - 2020 75.66%

Skills

Programming Languages: Java, Apex, JavaScript, SQL.

Web Technologies: HTML, CSS, Tailwind CSS, React.js

Databases: MongoDB, MySQL.

Tools: Git, GitHub, VS Code, MongoDB Atlas, Salesforce.

Core Computer Science: OOPs, REST APIs, Algorithms, Data Structures.

Projects

CampusMart *(Student MarketPlace)* 🔗

- **CampusMartt** is a MERN-based e-commerce platform designed specifically for college campuses, enabling students to buy and sell products within their community.
- It streamlines product browsing, secure transactions, and user interactions.
- Real-time product listing and filtering that helps students quickly find relevant items within their campus community.
- **Tech Stack:** React.js, Tailwind CSS, MongoDB, Mongoose.

GramConnect *(Digital Complaint System)* 🔗

- **GramConnect** is a web-based complaint management system that allows users to register complaints digitally while enabling administrators to track, manage, and resolve issues efficiently.
- Implemented role-based access control for users and administrators.
- Designed RESTful APIs for complaint creation, status updates, and resolution.
- **Tech Stack:** React.js, Tailwind CSS, MongoDB.

ExamCraft *(Online Examination System)* 🔗

- **ExamCraft** is an online examination management system that enables administrators to create exams and students to attempt tests and view results digitally.
- Implemented timed exams with automatic submission.
- Enabled secure student login and instant result generation.
- **Tech Stack:** React.js, Tailwind CSS, MongoDB.

Achievements & Certifications

- **DSA with JAVA - PW Skills (2024):** Completed core data structures and algorithms, with a focus on problem-solving and implementation in Java.
- **Codeforces** rating 1667 (max) with best Global Rank of 242 in CodeChef Round 1077.
- **CodeChef** rating 2101 (max) with best Global Rank of 299 in CodeChef Starters 225.
- Solved 500+ algorithmic and competitive questions on LeetCode, GeeksforGeeks, Codeforces, and CodeChef.
